Tuesday, Feb. 22, 1859. James M. McKinney et al v. Thomas McKinney et al. In error to the District Court of Miami County.

J. R. Swan, C. J., delivered the opinion of the Court. Held: the Courf. Held:

1. Some of the original surveys in this State
having been made by the magnetic and some by
the true meridian, a call "due west" made in a
contract for the subdivision of an original section has not a determinate meaning fixed by ju-dicial interpretation. Where the original survey has been made by the magnetic meridian and subdivisions of the section have afterwards been made, there arises a strong, perhaps con-clusive, presumption that such subdivision lines were intended to be run by the magnetic meridian. But even when the original survey was made by the true meridian, new subdi-vision lines, unless so made, in reference to the general, be run by the magnetic meridian, as that is the general userage in running lines .-The question, however, must be deemed in general a mixed one of the fact and law to be determined by the terms of the calls and extra
